

**B.S. Chemical Engineering, Chemistry Minor,  
Purdue University West Lafayette (2011)**

**M.S. Candidate, Chemical and Biomolecular Engineering,  
Georgia Institute of Technology**

**Previous Research:**

**Investigating bio-catalytic functionalization of cinnamic acids**

**Current Research Interests:**

**Cloud representation in global climate models**

**Aerosol/Ice cloud microphysics (aerosol-IN connection)**

**Advanced sensitivity tool development**
