

Jack Lin

- Ph.D. candidate: Earth and Atmospheric Sciences, Georgia Institute of Technology
- B.S. (2009): Chemical Engineering, Environmental Track, California Institute of Technology

Current research interests

- Instrument development and deployment for fast CCN spectra measurements.
- Linking CCN activity to precipitation and the hydrological cycle

Field experience

- CalNex (2010)
- CalWater (2011)
- EPEACE (2011)
- DC3 (2012)
- DISCOVER-AQ: SJV (2013)
