EDUCATION **Bachelor in Earth and Atmospheric Sciences**
Bachelor in Environmental Engineering
Master's in Environmental Engineering (Accepted Into Program)
Georgia Institute of Technology, Atlanta, GA 30332
Coursework: Geochemistry, Air Pollution Engineering, Environmental Engineering
Laboratory, Environmental Engineering Systems
GPA: 3.71
Expected Graduation 2014

EXPERIENCE **GT1000 Team Leader – EAS**
Mentored and advised new incoming freshman with set goals and objectives

Georgia Tech Case Competition: Designing for Good, Atlanta, GA
Worked in a group of four, designing a prototype of a shelter for refugees.
Collaborated with students from different disciplines

Undergraduate Research Assistant, Atlanta, GA
Researched the dissolution of CaCO_3 by using core samples from different depths in
the deep Pacific Ocean

University of New South Wales, Sydney, Australia
Studied at one the most distinguished universities in Australia
Understood the importance and application of the “triple bottom line” in conservation
management and engineering

HONORS **Dean's List**

SKILLS **Microsoft Office** **MATLAB** **Korean**

ACTIVITIES **Open Forum Executive Board**
Office of International Education
Engineers for a Sustainable World
Korean Campus Crusade for Christ
Student Alumni Association
Association of Environmental Engineers and Scientists
