

Wei-Chun Hsieh

Education

PhD Student, Earth and Atmospheric Sciences (GaTech)

MSc (2004) Atmospheric Sciences, NTU (Taiwan)

Thesis: The impacts of carbonaceous chemicals on cloud formation: cloud burning effect and surface film effect.

BS (2002) Atmospheric Sciences, NTU (Taiwan)

Research Interests

- *Indirect Climatic Effect of Aerosols*

Global Modeling of Aerosol-Cloud-Climate interactions with the NASA GISS GCM

- *Parameterization of autoconversion in global climate models.*
