- Wrong:
\[
G = \frac{4 \rho_wRT}{p^* D_v M_w} + \frac{\Delta H_v \rho_w}{k_a T \left[\frac{\Delta H_v M_w}{RT} - 1\right]} \tag{eq. 15}
\]

Correct:
\[
G = \frac{4 \rho_wRT}{p^* D_v M_w} + \frac{\Delta H_v \rho_w \left[\frac{\Delta H_v M_w}{RT} - 1\right]}{k_a T}
\]

- In equation 22 there should be a multiplication symbol instead of “;”.
- At the three lines after equation 22 there should be \(j\) instead of \(i\).
