

Katerina Bougiatioti

Education

- Post-Doc Researcher: Earth and Atmospheric Sciences, Georgia Institute of Technology/ National Technical University of Athens (Greece)
- PhD: Environmental Chemical Processes Laboratory, University of Crete, July 2009
- M.Sc.: Chimie de la Pollution Atmosphérique et Physique de l' Environnement, Université Paris 7, France, July 2004
- B.S.: Chemistry, Analytical and Environmental Chemistry Track, Aristotle University of Thessaloniki, Greece, July 2003

Previous Research

- Chemical composition of aerosols
- Size distribution of carbonaceous aerosol and CCN activity in the Eastern Mediterranean

Current Research Interests

- Impact of aerosols on cloud formation
- Development of instrumentation to study the volatility of the organic fraction in the Eastern Mediterranean
- Ambient aerosol measurements in different environments
